

How to BEAT the gurus (if you're quick)

[There is one thing the gurus have that you don't.](#)

And it's probably not what you think.

It's not necessarily that they have a better product than you.

Or that their marketing is better than yours.

The gurus make more money than you because...

They got there first.

There is another "gold rush" marketing opportunity that you need to get in on.

Retargeting pixels.

And if you start using them now...

You can build your email list and your business.

And you can beat the gurus.

P.S. Early adopters usually win the game.

They get first dibs on attracting clients with something new.

Be one of the first to gain the market's attention before the opportunity passes you by.
